

A CELEBRATED ARTIST DEAD

Mary Thornycroft, the Artist Mother of Artists.

SCULPTURE WAS HER FORTE.

An Acceptable Exhibitor at the Royal Academy for Many Years. She Was the Daughter of an Artist and Left Three Artist Children.

Born at Thornham in Norfolk in 1814, the venerable widow of the late Thomas Thornycroft, sculptor, who passed from among us on the 1st of February, leaves behind her the sweet savor of a life of talent and industry, coupled with the warm regard of all her friends. Daughter of John Francis, who died in 1861 at the same age as his daughter, Mrs. Thornycroft early exhibited that love of plastic art of which her father was also a professor of note. There is one of his works in the National Portrait gallery—a bust of the Duke of Wellington—that is a fair example of the skill that found its author's sisters among more than one crowned head and many of the most distinguished persons of his time. Working in her father's studio, with the gentleman as a fellow pupil who subsequently became her husband, the young lady made rapid progress in her profession and soon commenced exhibiting busts and other works at the Royal Academy, where she continued to be represented for many years. Leaving Norfolk for the metrop-

was regarded as one of the most beautiful, intellectual, brilliant women of New York society. But there came a time when her interests broadened so that the life of a society woman was insufficient. For a long period she was ill. During her illness the school was planned. With the recovery of her health the school became a reality. There are those who say that it is the extreme of folly for a beautiful, highborn woman to spend eight hours a day in a school with young ladies who are not rich and are without ancestors of note. But the matter of money and ancestors is a very small one with her. Indeed she appears to find it more to the credit of her young friends when they do develop themselves from humble beginnings.—San Francisco Chronicle.

INVITED TO PROCEED.

The Woman With a History Enters the Office.

A well dressed and sharp faced woman passed into the lawyer's office and very shortly was standing by his desk. "I beg your pardon," she said in salutation, "but can you spare a few moments of your valuable time?"

"I am very busy, madam," he replied, "but if you have anything of importance to communicate I shall be glad to hear it. Pray be seated."

"Thank you, no," she said, looking around at a clerk or two in a nervous fashion. "I am a woman with a history, and—"

"Excuse me," apologized the attorney, seeing a fee appearing on the horizon. "Possibly you had better step into my private office with me, where you will not be interrupted."

She thanked him, and they went into the adjoining room.

"Now," he said when they were seated, "I presume you wish to consult me on this matter of your history?"

"Yes, sir. That is why I am here."

"Very well, proceed. Anything you may say to me will be held in the strictest confidence. You were saying you were a woman with a history?"

"This very sympathetically as an encouragement."

"Yes, sir," she began as she laid a document before him. "It is a history of Napoleon Bonaparte in 18 months parts at 50 cents a month, and—"

He threw up his hands, but she had him, and he couldn't get away until he put down his name, and now when "a woman with a history" is mentioned in his hearing it makes cold chills run down his back.—Detroit Free Press.

He Objected.

"I want your name and residence," said the directory canvasser. "No, sir," replied the old man. "I reckon not! I don't 'scape de White Caps twice, an' I reckon I won't run no mo' risk!" "But this is for the directory." "Yes, sir. Day was a director in dat White Cap crowd, an when he give direction you could hear his holler clear eross de branch! No, sir. I reckon you'll have to make out 'thout my name!"—Atlanta Constitution.

Castoria. Castoria.

"Castoria is so well adapted to children that I recommend it as superior to any prescription known to me." H. A. ANCHER, M. D., 111 So. Oxford St., Brooklyn, N. Y.

"The use of 'Castoria' is so universal and its merits so well known that it seems a work of supererogation to endorse it. Few are the intelligent families who do not keep Castoria within easy reach." CARLOS MARTIN, D. D., New York City.

"For several years I have recommended 'Castoria,' and shall always continue to do so, as it has invariably produced beneficial results." EDWIN F. PARKER, M. D., 1234th Street and 7th Ave., New York City.

Makes Marvelous Cures in Blood Poison Rheumatism and Scrofula

P. P. P. purifies the blood, builds up the weak and debilitated, gives strength to weakened nerves, speeds disease, giving the patient health and happiness where sickness, gloomy feelings and lassitude first prevailed.

For primary, secondary and tertiary syphilis, for blood poisoning, mercurial poisoning, malaria, dyspepsia, and in all blood and skin diseases, like blotches, pimples, old chronic ulcers, tetter, scald head, boils, erysipelas, eczema, we may say, without fear of contradiction that P. P. P. is the best blood purifier in the world, and makes positive, speedy and permanent cures in all cases.

Testimony from the Mayor of Sequim, Tex. Sequim, Tex., January 14, 1893. MR. J. D. JOHNSTON, Savannah, Ga.: Gentlemen—I have tried your P. P. P. for a disease of the skin, usually known as skin cancer, of thirty years' standing, and found great relief; it purifies the blood, and cures all irritation from the seat of the disease and prevents any spreading of the sores. I have taken five or six bottles and feel confident that another course will effect a cure. It has also relieved me from indigestion and stomach troubles. Yours truly, CAPT. J. D. JOHNSTON, Attorney at Law.
